My Love

Do not abandon me my beloved
I knew at first sight we were meant to be
My ever so perfect gift from above

With a heart as pure as a snowy dove
And eyes as blue as the shimmering sea
Do not abandon me my beloved

We fit together as if hand and glove
This destructive news I could not foresee
My ever so perfect gift from above

My heart feels as though you gave it a shove
To show an effort is my guarantee
Do not abandon me my beloved

Listened to you earlier I should've
A blow with strength to drop me to my knee
My ever so perfect gift from above

Your hand is difficult to let go of
Take a moment to consider my plea
Do not abandon me my beloved
My ever so perfect gift from above
